

**Pilbara
Minerals**

Pilbara Local Business Register

Pilbara Minerals' contracting partners are integral to the success of our operation and expansion projects, and we are committed to providing opportunities for local businesses to participate in our supply chain.

Prioritising local content aligns with our purpose to make a difference in the world by ensuring we create shared value in the communities in which we operate.

With an expanding operation and ongoing capital improvements projects, we are actively looking for local Pilbara and WA businesses to work with us in the supply of goods and services.

our Pilbara Local
Business Register

Our Local Business Register is designed to increase our local participation by connecting our business with local suppliers.

This will help us identify potential contracting opportunities, and better understand local capability and capacity. If agreed, your business details may also be supplied to our larger contractors for potential subcontracting opportunities.
